ORDINANCE 7760

**AN ORDINANCE AMENDING TITLE XV, CHAPTER 150, SECTION 150.142
OF THE LOMBARD VILLAGE CODE**

(Building Permit Time Limits)

WHEREAS, the Lombard Board of Building Appeals met on November 6, 2019, to consider the Village Code amendments pertaining to time limits associated with building permits as set forth below; and,

WHEREAS, the Lombard Board of Building Appeals has also filed their recommendations with the President and Village Board of Trustees, recommending approval of the Village Code amendments set forth below;

WHEREAS, the President and Board of Trustees approve and adopt the recommendations of the Lombard Board of Building Appeals as fully set forth herein.

NOW, THEREFORE, BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF LOMBARD, DU PAGE COUNTY, ILLINOIS, as follows:

SECTION 1: That Title XV, Chapter 150, Section 150.142 (A) through (I) of the Lombard Village Code is hereby amended to read in its entirety as follows:

§ 150.142 - Time limit for permits.

(A) An applicant or property owner must take possession of a permit within 30 days after notification that a permit has been approved. The date of notification for the purpose of this section shall be the date on which a telephone call or electronic correspondence is made informing the applicant or owner that their permit was approved. If an applicant or owner does not take possession of a permit within 30 days from the date the permit was approved by the Village, then the permit shall have lapsed and the application for that permit shall be considered to be withdrawn. However, any permits that are withdrawn as a result of this subsection shall still be subject to the permit fee payment provisions of Section 150.141(K).

(B) A single-family residential permit may be cancelled by the applicant or the owner, if work has not begun. The applicant or the owner must request cancellation of the permit, in written form, to the Director of Community Development or his/her designee. The plan review fee shall be retained by the Village. Any fees associated with water and sewer connections, water meters, construction bonds or miscellaneous bonds shall be refunded at 100 percent to the applicant or the owner. The remainder of the single-family residential building permit fees shall be refunded to the applicant or the owner as follows:

(1) Permits cancelled less than 30 calendar days after issuance will be refunded at 100 percent minus the review fee and the administrative fee.

(2) Permits cancelled less than 180 calendar days after issuance will be refunded at 50 percent.

(3) Permits cancelled less than 365 calendar days after issuance will be refunded at 25 percent.

(C) All other building permits may be cancelled by the applicant or by the owner within 180 calendar days of issuance, in written form, to the Community Development Director or his/her designee. The plan review fee shall be retained by the Village. Any fees associated with water and/or sewer connections, water meters, construction bonds, and miscellaneous bonds shall be refunded at 100 percent to the applicant or the owner. The remainder of the building permit fees shall be refunded to the applicant or the owner at 50 percent of the applicable fees, if the request is made in written form within 180 calendar days of the date of issuance.

(D) A permit, once issued, shall be valid for a period of one year for all single-family residential construction. The Community Development Director or his/her designee may grant two extensions of time for additional periods not to exceed six months each, provided a fee of 25 percent of the original cost of the permit shall be charged at the time each extension is granted. Where, under authority of a permit or extended permit work has been started, and has been abandoned for a continuous period of 12 months, all rights under such permit shall thereupon terminate. The extension fee may be waived at the discretion of the Community Development Director or his/her designee, if the delay was caused by an act of nature, labor strike, casualty accident or other event beyond the control of the applicant or the owner.

(E) For all commercial, industrial, institutional and multiple-family construction permits for buildings of 100,000 square feet of gross floor area or less, a permit once issued shall be valid for 12 months. For construction projects greater than 100,000 square feet of gross floor area, a permit shall be valid for 24 months. The Community Development Director or his/her designee may grant two extensions of up to six months each, provided that ten percent of the original permit fee, has been paid. Any additional plan review fee or associated fee shall be charged according to the permit fee schedule and will be in addition to the ten percent renewal fee charge. If the three-year deadline to complete work has been exceeded and the work has received valid past inspections, full current permit fees are due upon renewal for all remaining work to be undertaken as part of the project.

(F) Any building permit which is duly issued by the village, pursuant to §150.140, shall automatically become invalid if the work which is the subject of the permit is not commenced within 180 days of the date the permit was issued. After the permit is issued, it shall be the obligation of the applicant to take reasonable and appropriate action so that the work, which is the subject of the permit, is commenced and completed in a diligent manner. The occurrence of the event described above involving the immediate preceding delay, the permit shall automatically become invalid unless the unpermitted delay is caused by an act of nature, labor strike, casualty or accident. In the event of such an act of nature, labor strike, casualty or accident which results in such an unpermitted delay, the applicant shall promptly notify the Community Development Director or his/her designee in writing, describing in reasonable detail the circumstances of the unpermitted delay. For the purpose of this section the definition of the word "work" shall be held

to mean, "labor performed for the number of hours that the construction industry accepts as constituting a work day."

(G) Any permit that has become invalid will require a new permit application to be completed and submitted to the Community Development Department. The applicant or the owner shall be required to pay fifty (50) percent of all building fees, if the application is made within six months of the permit becoming invalid. After six months of the permit becoming invalid, a new building permit will be required. The new permit shall be reviewed with respect to all codes that are enforced by the village, as of the date of the new permit being applied for.

(H) Any permitted work that is not completed by the permit expiration date(s), including extensions, shall be maintained in a safe condition. Any unsafe conditions that may exist, as determined by the Community Development Director or his/her designee, shall be immediately made safe or remove the dangerous structure or portion thereof, as determined at the discretion of the Community Development Director or his/her designee, and a contractor selected by the Community Development Director or his/her designee, shall make the structure, the site or portion thereof safe, at the owner's expense. All costs associated with making the structure, the site or portion thereof safe, including but not limited to legal fees, staff hours, and any contractual work, shall be the responsibility of the owner. If all costs associated with making the structure, the site or portion thereof safe are not paid within 30 days of receipt of invoice from the Village, a lien shall be placed upon the property.

(I) Any permitted construction that has been idle for a period of six months after permit issuance is invalid and the applicant or the owner shall be held in violation of Village ordinance and will be subject to being ticketed. The applicant or the owner of the property may be subject to fines of up to \$750.00 per day, for each day the property is found in violation of Village ordinance.
