

Information You Want First Responders To Know In An Emergency

Smart911™

Smart911 is a free emergency program designed to provide first responders critical life-saving information in an emergency.

How Does It Help?

Smart911 informs first responders such as paramedics, firemen, and law enforcement personnel of important household details such as medical conditions (disabilities, allergies, medications, illnesses), family & pet profiles (family size, photos, descriptions), vehicle information, & emergency contacts.

How Does It Work?

Smart911 allows residents of DuPage County the ability to share the information they choose with first responders. When a call is placed to 911 from a registered cell phone, the 911 dispatcher and responding emergency personnel have access to the important household data.

How Do I Sign Up?

*Register at www.smart911.com

*Create one profile per household

*Add the critical information you want first responders to know
