What's Ahead

Keeping You Informed

Improved Surroundings in Summer 2020

What's Ahead

Main Street, between St. Charles Road and Wilson Avenue, will be improved in Summer 2020 with a new roadway surface and pedestrian crossing improvements at Maple Street, the Illinois Prairie Path, and signalized intersections within the project limits.

This project is subject to the requirements of the Illinois Department of Transportation (IDOT). IDOT currently has no plans to suspend construction projects due to the Cononavirus pandemic.

R.W. Dunteman Company is the general contractor, and Mr. Mike Woulfe is the Village's on-site representative. Prior to construction, property owners should remove any private items from the public right-of-way (between the sidewalk and the roadway).

Driveways and side streets are anticipated to remain accessible throughout the project. Access to

the Metra station will also be maintained.

Motorists may encounter lane closures and travel delays throughout the project duration. Please exercise caution in construction zones and obey all traffic laws. The Village appreciates your patience.

Keeping You Informed

Project information is available at www.villageoflombard.org/main as well as by signing up for the free Notify Me[®] service that is available at www.villageoflombard.org/notifyme. Businesses within the project area that have a publicly posted email address on their website have been automatically submitted for enrollment. Notify Me provides timely email or text message project updates, and contact information is not shared or used for any other purpose.
