What's Ahead

Keeping You Informed

Improved surroundings in summer 2021

What's Ahead

In summer 2021, the Village will be completing missing path sections on Wilson Avenue by Glenbard East High School and Sunset Knoll Park with a new eight foot wide concrete surface. Residents and motorists should anticipate intermittent lane closures and travel delays throughout the project duration. This project involves the Village of Lombard, and Glenbard East High School has been notified.

Globe Construction, Inc. is the general contractor, and Ms. Sarah Hodges is the Village's on-site representative. Area sidestreets will remain accessible throughout the project duration. Isolated driveway closures will be temporarily necessary during the project, and the Village's on-site representative will coordinate directly with those property owners. Affected sidewalks will be closed throughout the majority of the project duration, and pedestrians may use the existing

sidewalk on the north side of Wilson Avenue. The Village appreciates your patience during this improvement project.

Keeping You Informed

More project information may be found at www.villageoflombard.org/wilsonpath. Physical newsletters will be periodically delivered and will also be available on the webpage. Individuals are strongly encouraged to sign up for the free Notify Me[®] service at www.villageoflombard.org/notifyme or by contacting Public Works. Notify Me provides timely email or text message project updates, and this information is not shared or used for any other purpose.
